

## Art 7

Students study two-dimensional, three-dimensional and graphic arts/multimedia visual arts. Students experiment with art techniques that emphasize creative expression and application of problem-solving skills to communicate ideas and emotions. Throughout all activities, instruction stresses art elements and principles of design. Students learn about the cultural context of art history and complete a project that integrates other fields of knowledge. Using appropriate art vocabulary and their own life experiences, students evaluate and analyze art, as well as explore art careers.

**School Level:** Middle School

**Grade:** 7

**Length:** one semester

**Program:** Visual Art
