

German IB

Level I German focuses on the development of communicative competence and on the understanding of German-speaking cultures. Students develop a solid and comprehensive foundation in the target language in the domains of listening, speaking, reading and writing. Vocabulary and grammar structures are presented in real-life contexts and are developed around specific communicative functions. Topics focusing on adolescents' lives, needs and experiences, such as family, after-school activities and shopping, are integrated into instruction, as well as products, practices and perspectives drawn from the target culture. During the language-learning process, students gain insights into how their own language is structured, as well as an increased understanding of the relationship between culture and language. Students also develop an appreciation for the many recreational, educational and occupational uses of German beyond the classroom.

High School Credits: 0.5

School Level: Middle School

Grade: 7, 8

Length: full year

Prerequisites:

German IA

Program: World Languages
