

Technical Drawing and Design I

In this foundation course, students learn the basic language of technical design using AutoCAD, while they design, sketch and make technical drawings, illustrations, models or prototypes of real design problems. Students develop spatial ability as they apply mathematical concepts to visual representations. This course is especially recommended for future engineering and architecture students.

High School Credits: 0.5

School Level: High School

Grade: 9, 10, 11, 12

Program: CTE: Technology Education
