

Dual Enrollment Automotive Technology II

This course represents the advanced competencies from National Automotive Technician's Education Foundations (CNATEF's) Maintenance and Light Repair accredited program without redundancy from the prerequisite course. Students are provided instruction in all systems as they prepare for the ASE (Automotive Service Excellence) Student Certification, "the first step in building a career as a service professional in the automotive industry." Successful completion of this course will result in program completion and prepare students to pass the equivalent NATEF student exam and ultimately attain certification. There are fees associated with this course. Students may earn college credits through dual enrollment with Northern Virginia Community College.

High School Credits: 2

School Level: High School

Grade: 11, 12

Prerequisites:

Automotive Technology I

Program: CTE: Trade and Industrial Education
