

Stagecraft I

Students in Stagecraft I focus on the non-performance-related areas of theatre, focusing on scenic design and construction, but also including costume, makeup and lighting design. Students engage in hands-on activities such as building sets for school shows. Further enrichment supports master class sessions, teacher workshops, artists-in-residence and technical support clinics.

High School Credits: 1

School Level: High School

Grade: 9, 10, 11, 12

Program: Theatre
