

# German II

In German II, students continue to develop their proficiency in the three strands of communicative competence: interacting with other speakers of German, understanding oral and written messages in German and making oral and written presentations in German. Students begin to demonstrate a greater level of accuracy when using basic language structures and are exposed to more complex features of the German language. Students continue to focus communication on their immediate world and daily life activities. Emphasis continues to be placed on the use of German in the classroom, as well as on the use of authentic materials to learn about the culture.
