

College Test Preparation

This course is designed to expose students to the format and structure of the SAT/ ACT, provide students with targeted test strategies, prepare students to strengthen physical and mental preparedness and review key content for each test section. All test sections are covered in this course. Course content also improves basic math, grammar and reading skills. Participants also learn goal-setting, time management and college essay strategies and techniques.

Participants are expected to complete about 60 minutes of independent test practice weekly. In addition, participants receive an opportunity to take an actual conditions exam to practice test strategies and target content preparation. Students who register for this course are expected to register for the SAT or ACT on a date scheduled toward the end of the semester.
